

We are one of North India's leading IT distributors. Since inception have been bringing the latest products and technology solutions to the market and finding new ways to add value to our customers. We offer a broad array of future bound, well structured core technology solutions across diverse verticals.

Suryan Technologies Pvt. Ltd. founded in 2003, as a value added re-seller, by a team of young and dynamic professionals to cater the market of Technology Distribution. Since, it has come up a long way, as a leading provider of IT products and Logistics management in Delhi & NCR - from the heart of India's capital - Delhi.

Over the years, we have formed strong relations with World-class Vendors like H.P. Epson, IBM, Acer, APC, Microsoft etc among others.

Our in-depth understanding of the channel business and close association with leading vendors has enabled us to be the vital link in the technology value chain, connecting solution providers in India. To leverage our business know-how, we have expanded into neighboring markets like Haryana.

We have been a trendsetter and have always strived to bring tomorrow's technology today. Our vision, reach, go-to-market strategy, initiatives ensure a unique experience, a feeling that is truly different.

Corporate Overview

Suryan Technologies is an aggressive and dynamic company that distributes and markets high end computer solutions with the help of dealers, resellers, system integrators spread throughout Delhi & NCR.

Latest, Leading edge hardware and software technology applications as per the customer needs - it's the secret of our success, in corporate, institutional sales, back boned by a dynamic sales people and full fledged customer support team.
